

Eduling International LLC

Privacy Policy

Eduling International LLC (“we”, “us”, or “our”) is committed to protecting your privacy. We have prepared this Privacy Policy (“Privacy Policy”) to describe to you our practices regarding the information that we collect from users on our Website (“Website”), our Application (“App”), and the services offered through the Website and App (collectively, the “Services”).

Information Collected

Information You Provide to Us. When you create an account for our Services on our Website or App (an “Account”), you provide us your name, your username, email address or parent’s email address if you are younger than thirteen years old in some jurisdictions or sixteen years old in other jurisdictions, date of birth, primary language, target language, language proficiency, and possibly financial information depending on the types of Services you choose.

We retain information on your behalf, such as messages you send (including the content of the message and the recipient data), using your Account information.

We may collect the unique device id number of the mobile device on which you use the Website or App.

We may also collect personal information at other points in our Services that state that personal information is being collected.

Speaking on App. During each speaking session, we will use your microphone to enable you to speak with another Learner, Volunteer, Tutor, or Educator. Only your username and chosen avatar among the avatars provided by the app will be shown to your speaking partner. You are completely anonymous to your speaking partner by default, and you can freely choose whether to tell them any personal details such as your name during the conversation. If you allow recording of your speech, we will record your speech and convert the speech to text in order to give you feedback on your language use. Only you have access to this recording and text. We will also store your streaks, completed tasks, the number of minutes spent speaking, the transcript, and the number of words produced. If you choose not to have your speech recorded, the audio recording, text, and number of words will not be recorded or available.

Publishing your Profile. When you choose to join the Live Lounge or pin your profile in the Connection Lounge, other users will be able to see your username, avatar, account type (learner, educator, volunteer), first language, self-assessed proficiency level, ranking, level, and the number of tasks completed. No personal information is provided or shared.

Course Registration. When you register for a course from Eduling, we collect information (including name, email, date of birth, and other information) for admission decisions in the application form. We will use this information to place you in appropriate courses and communication within the courses you attend. If you are under thirteen years of age in the

United States or sixteen years of age in any jurisdiction outside of the United States, your parent's email is required in the application form.

Event Registration. When you register to attend an event from Eduling, we collect information (including name, email, and other information) to invite you to the event. If you are under thirteen years of age in the United States or sixteen years of age in any jurisdiction outside of the United States, your parent's email is required in the registration form.

Information Collected from Third Party Companies. We may receive information about you from other sources. We may add this information to the information we have already collected from you via our Services in order to improve the Services.

We use this information to help us deliver the most relevant information to you and administer and improve the Services.

This information includes IP addresses, browser type, Internet service provider ("ISP"), referring/exit pages, operating system, date/time stamp, and clickstream data. We use this information to maintain and improve the performance of the Services.

Cookies. We use cookies to collect information. "Cookies" are small pieces of information that a website sends to your computer's hard drive while you are viewing the website. We, and some third parties, may use both session Cookies (which expire once you close your web browser) and persistent Cookies (which stay on your computer until you delete them) to provide you with a more personal and interactive experience on our Services. You may set your Internet web browser to refuse cookies or to remove cookies from your hard drive, but our App does not recognize "Do Not Track" signals. You can also learn more about Cookies by visiting www.allaboutcookies.org which includes additional useful information on Cookies and how to block them using different browsers. These companies may collect information about online activities conducted on a particular computer, browser, or device over time and across third-party websites or online services for the purpose of delivering advertising that is likely to be of greater interest to you on our Website, our App, and those of third parties.

Analytics Companies. We work with a number of third-party analytics companies that collect information anonymously and report trends without identifying individual visitors. These

services allow us to view a variety of reports about how visitors interact with the Services so we can improve our Website and App and understand how people find and navigate it.

Eduling may occasionally send you service related and product change announcements through the general operation of the Service. We will send you reminder notifications to support the Eduling teaching methodology by reinforcing the learning cadence and help maintain your learning streak. We process your data to help provide you with the Service and offer personalized features, to understand and improve our Service and to keep our Service safe and secure.

When we utilize service providers for processing any personal data, we implement contractual protections limiting the use of that personal data to the provision of services to Eduling. We will be required to access and disclose personal data in response to lawful requests, such as subpoenas or court orders, or in compliance with applicable laws.

Children’s Online Privacy Protection Act (COPPA)

We are fully compliant with COPPA. We do not collect personal information from children under the age of thirteen if such children are located within the United States or under the age of sixteen if such children are located in any jurisdiction outside of the United States. All

information about individuals under the age of thirteen or sixteen must be provided by a teacher or parent.

Student Online Personal Information Protection Act (SOPIPA)

We are fully compliant with SOPIPA. We never share student data for advertising purposes or allow data collection by third-party advertisers or data brokers from students. We intentionally limit our data collection to only what we need to provide our Services to you.

We only use student personal information to provide our Services to schools and support and improve the product. Specifically, we may use and disclose the information we collect:

- To permit teachers to review students' work, monitor students' performance and progress, plan lessons, and otherwise support instruction;
- To permit parents and guardians to review their children's work and monitor their performance and progress;
- To offer students feedback and support, permit them to access information shared by their teachers, suggest other content or activities for them, help them track their own progress, maintain a file of their work, and allow them to create a collection of books; and
- To provide teachers with various types of reports, such as reports detailing the performance and progress of a particular classroom or student.

Accounts for Minors

When a user creates an Eduling Account we collect their age and compare it to the local standard of child online consent depending on the country they registered. We refer to users under this age as "child users." Child users are not permitted to create a user account. Instead, we ask the parent to create a Parent account and add their child/children under their account to use our Service. With the App, we do not collect child users' names. Instead, parents can create usernames for their children. Parents can turn off certain features of the app, such as random connection, offline connection, and off-line text chat so that their child will only communicate with friends that they know on the app. Parents may delete the child's account at any time.

Jurisdiction

The laws regarding data protection for minors varies by country. For the United States, COPPA states the age of consent is thirteen; therefore, children under the age of thirteen in the United States are required to obtain parental consent to participate in Eduling's services. For countries outside of the United States, most of which have adopted the European Union's standard regarding data protection for minors, GDPR states the age of consent is sixteen; therefore, children under the age of sixteen in such jurisdictions are required to have parental consent to participate in Eduling's services.

Third-Party Websites

Our Website and App may contain links to third party websites. When you click on a link to any other website or location, you will leave our Website or App and go to another site, and another entity may collect personal information or anonymous data from you. We have no control over, do not review, and are not responsible for these outside websites or their content. Please understand that the terms of this Privacy Policy do not apply to any outside websites, content, or any collection of your personal information after you click on links to such outside websites. We encourage you to read the privacy policies of every website that you visit. The links to third party websites or locations are for your convenience and do not signify our endorsement of such third parties or their products, content, or websites.

Choice/Opt-Out

We want to communicate with you only if you want to hear from us. You may choose to stop receiving marketing emails by following the unsubscribe instructions included in these emails, updating your communications preferences on our Website and App, or contacting us directly. Please note, however, that as a user of the Services, you cannot opt-out of some administrative communications that are reasonably necessary to the Services, such as billing or Account notifications.

You have the right to access, update, and correct inaccuracies in your personal information in our custody and control, subject to certain exceptions prescribed by law. You may request access, an updating, or the correction of inaccuracies in other personal information in our custody or control by contacting us directly.

We reserve the right to retain any personal information reasonably necessary to appropriately document our business activities and record retention purposes. We will store personal information for as long as reasonably necessary for the purposes described in this Privacy Policy. You may request deletion of your personal information by us, and we will use commercially reasonable efforts to honor your request where required by law, but please note that we may be required to keep such information and not delete it or to keep this information for a certain time, in which case we will comply with your deletion request only after we have fulfilled such requirements. When we delete any information, it will be deleted from the active database, but it may remain in our archives. We may also retain your information for fraud or similar purposes.

California Residents

If you are a California resident and have an established business relationship with us, you may request a notice disclosing the categories of personal information we have shared with third parties, for the third parties' direct marketing purposes, during the preceding calendar year. To request a notice, please contact us directly.

Targeted Advertising

We may work with third parties, such as network advertisers and ad exchanges, that use tracking technologies on our Website and App in order to provide tailored advertisements on our behalf and/or on behalf of other advertisers across the Internet. We may use third-party analytics service providers to evaluate and provide us and/or third parties with information about the use

of these ads on third-party websites and viewing of ads and of our content. Network advertisers are third parties that display advertisements, which may be based on your activities (including past visits to our Website and App) across the Internet and mobile media (“Targeted Advertising”).

Targeted Advertising uses information collected on an individual’s web browsing behavior on one website (such as the pages they have visited or the searches they have made) in order to target advertising to that individual on another website. Targeting called Cross Device Tracking can also take place across devices such as tablets, smartphones, laptops, and smart televisions. Third parties collect this information by placing or accessing cookies or other tracking technologies in your browser when you visit this or other websites.

Collecting information enables us to target advertisements to you for services in which we believe you might be interested. If you object to receiving Targeted Advertising from us on third-party websites, you can learn more about your ability to limit them below. Our third-party ad network, exchange providers, advertisers, and/or traffic measurement services may themselves set and access their own technologies on your device and track certain behavioral usage information via a device identifier. These third-party technologies may be set to, among other things: (a) help deliver advertisements to you that you might be interested in; (b) prevent you from seeing the same advertisements; and (c) understand the usefulness of the advertisements that have been delivered to you.

Statements regarding our privacy practices do not apply to the methods for collecting information used by these third-parties or the use of the information that such third parties collect. We make no representations regarding the policies or practices of third-party advertisers, advertising networks or exchanges, or related third parties.

While websites use a variety of companies to serve advertisements, you may wish to visit http://www.networkadvertising.org/optout_nonppii.asp, which provides information regarding this practice by Network Advertising Initiative (“NAI”) members and your choices regarding having this information used by these companies, including the “opt-out” procedures of NAI members. You may also opt-out of receiving Targeted Advertising on participating websites and services by visiting the Digital Advertising Alliance (“DAA”) website at <http://www.aboutads.info/choices/>.

Users Outside of the United States

The Website and App are maintained in the United States of America. By using the Website or App, you freely and specifically give us your consent to export your personal information to the United States and to store and use it in the United States as specified in this Privacy Policy. You understand that data stored in the United States may be subject to lawful requests by the courts or law enforcement authorities in the United States.

Changes to this Privacy Policy

We may revise this Privacy Policy from time to time, and if we make any material changes in the way we use your personal information, we will notify you by sending you an e-mail to the last e-mail address you provided to us and/or by prominently posting notice of the changes on the Services and updating the “Last Updated” date below. If we make any changes to this Privacy Policy, they will be effective upon the earlier of thirty (30) calendar days following our dispatch of an e-mail notice to you or thirty (30) calendar days following our posting of notice of the changes on the Services. Please note that at all times you are responsible for updating your personal information to provide us with your most current e-mail address. In the event that the last e-mail address that you have provided us is not valid, or for any reason is not capable of delivering to you the notice described above, our e-mail containing such notice will nonetheless constitute effective notice of the changes described in the notice. If you do not wish to permit changes in our use of your personal information, you must notify us prior to the effective date of the changes. Continued use of our Services following notice of such changes shall indicate your acknowledgement of such changes and agreement to be bound by the terms and conditions of such changes.
